DIVERSIFYING

THE DIGITAL HUMANITIES
the black book interactive project

The Black Book Interactive Project: Extending the Reach (BBIP-ER) is a research initiative bridging the gap within the digital humanities. Over the next 18 months, we will expand our digital archive – currently 1250 African American novels – by adding content and completing the conversion to machine readable files with descriptive metadata. Our goal is to expand the user network through training webinars, making the BBIP-ER database a dedicated interactive environment for scholars, librarians, and practitioners who become working partners in new research opportunities.

CLA Post-Conference Workshop

Saturday ☉ April 13, 2019 ☉ 12:30-6pm ☉ Lunch Provided
North Carolina Central University, Durham, NC
BBIP Dialogue ☉ Project Presentations ☉ New Research

BBIP-ER Scholar Program

The BBIP-ER Scholar Program is a series of intensive workshops (both online and in person) to make BBIP-ER available to a larger group of scholars, educators, and students currently outside of the digital community. Over the course of 16 months, BBIP-ER Scholars will produce Digital Humanities research projects utilizing the BBIP-ER corpus and interface. Stipends will be provided to support research time and travel. **Application deadline is Tuesday, January 15th, 2019.** More information and application materials can be found at <https://bbip.ku.edu/>.
